SPECIAL REGULATIONS FOR IMPORT AND EXPORT BETWEEN LITHUANIA AND KALININGRAD

1. INTRODUCTION

- 1.1 These Regulations are part of the Rulebook and contains detailed provisions on bidding and price calculation for the portfolios used for import and export to and from the Lithuanian area.
- 1.2 The Lithuanian TSO, Litgrid, guarantees a specific amount of available trading capacity day ahead for import and export to Lithuania. These capacities are published on the Nord Pool website by 10:00 every day on the Trading Day. These capacities puts a limitation on the Orders placed by Members according to section 2.2 below.
- 1.3 All Members who have entered into the relevant agreements for capacity trading with Litgrid are permitted to open portfolios for Trading on the interconnector between Lithuania and Kaliningrad.

2. SPECIAL RESTRICTIONS IN BIDDING FOR EXPORT TO OR IMPORT FROM KALININGRAD

- 2.1 Only Hourly Orders are available for bidding in the dedicated portfolios.
- 2.2 Bidding volume per Member in each hour is not allowed to exceed the available trading capacity on the relevant connection in the relevant hour.

3. PRICE AND VOLUME CALCULATION

- 3.1 In the price and volume calculation, Orders for import and export between Lithuania and Kaliningrad are treated as if the Orders were placed in Lithuania, and will be settled at the Lithuanian Area Price. Beyond that, the price and volume calculation follows the normal procedures described in the Day-ahead Market Regulations
